

Arestin (minocycline HCL 1mg)-

Arestin is a small amount of locally administered antibiotic powder that is easily applied by a dental professional. Arestin is indicated as an adjunct to scaling and root planing (SRP) procedures for reduction of pocket depth in patients with adult periodontitis. Arestin may be used as part of a periodontal maintenance program which includes good oral hygiene, and scaling and root planing. For further information on Arestin please visit www.Arestin.com
