

## Sapphire Whitening System-

Sapphire professional Whitening gently brightens your smile. It is the only in-office system specially formulated to prevent sensitivity- making it the leading choice for safe, convenient and effective whitening. You can achieve a whiter smile *Painlessly & Pleasantly* in just 30minuets. Staining from coffee, wine, smoking, certain medications, genetics and age can slowly diminish the power of your smile. With Sapphire Whitening, your dental professional can whiten your smile over 7 shades in just 30 minutes.
